County Court.
Before Mr Justice Pemberton.
Thursday, Sept 22d, 1870.
Fell & Finlayson vs Robinson.—This case, which has been some time in the Court and several times adjourned, was finally decided in favor of plaintiffs. The history of the case is this: Fell & Finlayson sold goods to Eddy & Robinson, who were partners, to the amount of \$177. In June last T Conlon bought out Eddy. In August, Conlon sold out to Robinson for \$250, the payment of which was secured by a bill of sale of the furniture of the Queen's Head. Fell & Finlayson obtained and recorded a judgment against Eddy & Robinson and sought to enforce the judgment against the goods comprised in the bill of sale, but was resisted by Conlon who claimed under it as above-mentioned. It appeared in the evidence that at the time of making the bill of sale the firm of Robinson & Conlon had not as yet sufficient in value to cover the indebtedness. The Judge accordingly decided that the conveyance was not made by one insolvent partner to another, and therefore was a fraud upon the creditor, and void by the statute 27 Elizabeth, and gave judgment for the execution creditor. Mr Bishop for plaintiffs; Mr McCright, instructed by Mr Courtney, for defendants.
Doughty vs McLean and Allsop.—An action to recover for labor done at the Mechanic's Institute picnic. The charge made by plaintiff was \$20 50. Defendants deposited \$17 in Court. The Court thought the amount tendered ample and entered judgment for defendants. Mr Johnson for the defendants.
Gorridge vs Long and Allsop.—This case, similar to the last, was postponed until Monday next.
REPUBLICANISM IN ENGLAND.—A good deal has lately appeared in our telegraphic reports respecting certain Republican demonstrations in England, but it is a circumstance worthy of remark that these accounts are all traceable to one source—the New York World's special London correspondent. The reputation acquired by that journal in times past would appear to justify the hint that anything appearing in its columns either about English or Canadian affairs should be received with a considerable degree of allowance. That a certain Democratic element exists in England, as it does in almost every country, we presume every intelligent person was aware; and that it should seize upon the present European crisis as presenting what appeared a favorable opportunity for an open exhibition of its strength was only to be expected, as it is during such excitements that a party may hope to carry with it many who are not in reality of its faith; but that these Republican demonstrations have assumed the important proportions assigned to them by the 'World's special' we do not for a single moment believe.
PORT SOUND.—We glean the following from the Seattle Intelligencer of yesterday: There are now loading at Port Gamble the ships David Headley and Elizabeth Kimball, and the bark Milan. A large and splendid building for a new restaurant is being erected on Commercial street. The Mary Woodruff arrived from Bellingham Bay on Wednesday with freight and passengers for Seattle. At Port Blakely the ship John Jay is loading spars, and the barks Oak Hill and Nicholas Biddle are taking in lumber. So many buildings are going up at Walla Walla that a sufficient number of workmen cannot be had. Bailey Gatzert, Esq, of the firm of Schwabacher Bros & Co of Seattle, is having a very beautiful residence erected. From the Olympia Tribune of Wednesday:—The German residents of Portland have remitted \$1210 to Berlin for the relief of wounded Prussians, and Oregon City has contributed \$208 for the like object. Professor Hogg, who recently ascended Mount Hood, measured the mountain and makes it 11300 feet high, thus agreeing with Lieut Williamson. The party are preparing to ascend Mount Adams.
FROM PACIFIC RIVER.—From passengers who arrived by sloop yesterday from Peace River we receive continued unfavorable accounts of the Peace River country. One minor prospecting Nation, Parsnip and Peace Rivers, and a Vitale Creek, but found nothing to justify remaining. On Nation River the dust is very fine—almost flour—and not at all plentiful. The two claims first struck on Vitale Creek continue to pay good wages, but the diggings are shallow. The weather had been pleasant, and the health of the district was good. Nation River empties into Parsnip River, and the latter stream into Peace River. It is an exceedingly swift and dangerous stream, rapids and narrow gorges or canons, through which the whole volume of water rushes with terrible rapidity, are numerous. The party of which our informant made one were forced to run all these swift and dangerous places in canoes and narrowly escaped destruction on several occasions. Another prospector confirms the above and adds that a canoe load of provisions was lost in Nation river by upsetting in a rapid. The early prospectors have nearly all left the country and gone back to Cariboo. While at McLeod's lake a report came that diggings of value had been found on Tache creek; but the rumor was vague and could not be traced to a reliable source.
DISCHARGED.—F G Anstey, who was on Wednesday remanded on a charge of stealing a coat, was yesterday re-examined and the charge not being pressed by Mr Beaven, the owner of the coat, the Judge, in view of the hitherto trustworthy character of the accused, ordered his discharge.

FROM NEW WESTMINSTER.—The sloop Martha, Capt J O Smith, arrived from New Westminster at 5 o'clock yesterday morning with eight passengers, several of whom are from Peace River and Cariboo. The sloop left New Westminster at 12 o'clock on Tuesday night. His Excellency the Governor is still at New Westminster unable, from illness, to continue his journey to Yale. A young printer named Hurbutt, lately from Victoria, is in custody upon a charge of having broken into the house occupied by the Sisters of Mercy, on Sunday night, with evil intent. He was detected by the Sisters and handed over to the Police. An examination of the accused took place on Tuesday before Mr Bushby, S. M., with closed doors, and the prisoner was remanded for three days.
SEMONS IN STONES.—Mr W Williams, while splitting a piece of sandstone for the construction of the Catholic Church, at Cowichan, the other day, found the impression of a maple leaf, as clearly defined on the stone as if it had been done by hand. The leaf appears on a fragment of stone and on the larger piece from which it was split. How many, many centuries have fled since that stone was minute particles of sand and silt and that leaf, falling from the tree, became a petrification—who can estimate? Mr Williams assures us that petrifications of screw-fish, small leaves, and a perfectly round shell—all varieties now unknown here—are frequently found in the same stone.
COWICHAN.—Mr William Williams yesterday came down from Cowichan, having completed the new stone church for the Catholic Mission. The church is 64 feet in length and 30 feet in width, with a tower and gable 20 feet higher than the rest of the work. The height of the wall is 16 feet 4 inches. The material from which the church is constructed is grey sandstone, of very fine grain. Father Roudeau of the Mission assisted in building the church—working as regularly and faithfully with Mr Williams as if employed by the day. Father Roudeau is a faithful and energetic missionary and may well feel proud of the beautiful little church which fronts the harbor and may be seen for a long distance.
THE ENTERPRISE sailed for New Westminster yesterday morning at 9 o'clock with about twenty passengers and a large freight. Among the passengers were Messrs Landvoigt, Nelson, McKimley, Mitchell and Cooper. The Enterprise will remain at New Westminster until the arrival of the Hope from Yale and return to Victoria on Sunday with exhibitors and their goods.
THE SOUND MAIL.—The mail steamer Isabel, Capt Starr, arrived from the Sound last evening at 7:15 o'clock, making the passage from Port Townsend in 3 hours. She brought 43 passengers, 76 sacks of feed consigned to D Leneveu, and a small mail. The Isabel will sail at 11 o'clock this morning for Port Townsend, connecting with the Alida as usual.
MAINLAND FARMING.—Passers along the wagon-road lately report a very favorable yield—both in quantity and quality—of cereals and root-crops. Harvesting was being energetically prosecuted and the farmers were in excellent spirits. A great many claims of wild land have been located during the past summer.
THE BALL.—Arrangements for the Grand Masonic Ball this evening, are complete. Yesterday a bridge was thrown across the space between the Alhambra and the Colonial Hotel, by means of which the supper-room will be reached. A limited number of tickets have been sold and a very pleasant evening's enjoyment is anticipated.
FOR THE EAST COAST.—The steamer Sir James Douglas, Capt Clarke, will sail for the East Coast on Monday morning next, instead of on Tuesday, her usual day, to accommodate East Coast exhibitors. Goods intended for the East Coast must be sent to the wharf tomorrow.
BRAVER.—A full grown beaver was shot by Mr Jenkinson up the the Arm on Wednesday and may be seen at the store of Mr W B Townsend, on Forts street. The delicate morsel—the trowel or tail—of the industrious architect is highly esteemed for soup.
THE COWICHAN SHOW.—The Agricultural and Horticultural Society of Cowichan held their annual Show at Maple Bay on Wednesday. Much interest was manifested in the Show and the attendance was very large.
ON THE WAY.—We observe the Hon F J Barbard's name is in the list of passengers by the Oriflamme, which sailed from San Francisco on Saturday. He will be due here by the Sound steamer on Monday next.
INDIAN WAR.—Great alarm exists at Neah Bay, on the American side of the Straits, in consequence of the outbreak of a war between the Indians, and the U S R-venue Cutter Lincoln started down yesterday to quell the trouble.
GENERAL SHERMAN.—This veteran soldier was a passenger on the steamer Oriflamme, and doubtless arrived at Portland on Tuesday, where a right hearty reception awaited him. It is said he will come to Victoria.
THE PETITION for semi-weekly steam communication with Puget Sound has been unanimously signed. Upwards of one hundred of the most respectable names in the city appear among the signatures.
HASTINGS SAWMILL.—Mr W C Wallace of Port Madison came over on the Isabel last evening to proceed to Burrard Inlet, having accepted an engagement from the Hastings sawmill company.
PROGRESSING.—The Oregonian of Tuesday says cars on the Oregon and California Railroad were within two miles of the State Capital.
DRAMATIC.—The Bates company appears to be very popular at Portland. Their performance on Monday night was very highly praised by the local press.
IN TOWN.—J B Montgomery, Esq, of the North Pacific Railroad Company, D G H Rothschild, Esq, and Gen Fowler of Port Townsend arrived last evening by the Isabel.
THE THEATRE has been leased for two months from the middle of October to Mr Bird, who is expected to arrive here in a few weeks with a new Company.

SEVERE ACCIDENT.—One of the telegraph constructors now at Saanich, on Wednesday, while using an axe, cut his foot half off. The injury is in the instep and is of a very painful and severe character.
A NEW STEAMER is on the way round the Horn from New York to run on this coast. She is owned by J T Wright & Co.
THE Idaho arrived from Nanaimo last night, and will sail on Saturday morning at 10 o'clock, for San Francisco direct.
A CORRESPONDENT KILLED.—Col Pemberton, correspondent of the Times, was killed by a stray shot at Sedan.
THE propeller California reached Portland yesterday morning.

SPECIAL TO THE DAILY BRITISH COLONIST.
LAST NIGHT'S DISPATCHES.
Europe.
MARSAILLE, Sept 22.—The Municipal Council has voted a war loan of ten million francs.
LONDON, Sept 21.—The German forces have occupied Nemours.
A dispatch from King William to the Queen on Tuesday says the French abandoned their position near Porrenville, north of Fort St Dennis. At the same time a Bavarian corps crossed the Seine near Villeneuve and attacked three divisions under command of Gen Venoy on the heights of Saenx and captured 7 guns and many men. Fritz directed the movement.
BERLIN, Sept 21.—The Crown Prince yesterday informed the Queen by telegraph from Versailles of the investment of Paris from Versailles to Vincennes and that the French troops had been driven back.
A dispatch from the Royal headquarters at Meaux on the 20th, says the complete investment of Paris was accomplished yesterday and the King reconnoitered the fortifications on the north side of the city.
LONDON, Sept 22.—King William reports to the Queen that the investment of Paris is now complete. The French advance on the north side was repulsed with a loss of 7 guns and 2500 prisoners.
A correspondent at Berlin states that the Republicans of Germany are continuing the agitation against the annexation of Alsace and Lorraine. The military circles of Germany demand without any reflection of consequences that Alsace and Lorraine, Metz and Toul be given up by the French and annexed to Germany. They also urge with equal disregard of consequences the Prussian occupation of Luxembourg and giving French Flanders to Belgium, Savoy to Switzerland and Nice and Corsica to Italy. They will not submit to any interference from neutrals. Neither party approves of the wholesale dismemberment of France, but asks for a sufficient guarantee to be given Germany against further breaches of peace. They indicate that the guarantee should take the shape of an incorporation of Alsace and Lorraine and dismantling the fortresses of Metz and Strasbourg.
LONDON, Sept 21.—Dispatches received in London from Bismarck yesterday say that Favre was cordially received at the King's headquarters. Preliminary discussions were held relating to time and need of convoking the Assembly. No steps were taken for securing sufficient guarantee for the fulfillment of treaties to which the Provisional Government may yield its consent.
On Monday a powerful French force under Rouman and Deoret was posted on the heights above Cambrif. The Prussians advanced through the woods of Euendorf and a severe engagement took place at Fontenay in which the Prussians were repulsed with considerable loss. They still occupy their position at Ablon and it is expected that the first general battle will be fought on the same ground.
LONDON, Sept 21.—The Tribune's special correspondent telegraphed from Florence that the Italian troops took quiet possession of Rome after desultory fighting which was stopped by the Pope. There were many demonstrations of joy here. A multitude entered the tower and forced the keepers to ring the great bell. The Italian troops had orders to use the least possible force in the event of resistance. The dual policy of the Government concerning the Pope is still distributed by the Lieut, who feared to yield too much to the pressure of the Catholic Powers.
The Papal organ says the following will be the Cabinet of Italy under the new regime, according to reports circulating at Rome:—Mannini, President; Minister of Finance, Fabrizi; Minister of War, Porta; Minister of Public Works, Ferrarini; Minister of Education, Nuncio; Minister of Grace and Justice, Muscati; Minister of Agriculture, Commerce and Marine, Garibaldi.
BERLIN, Sept 21.—John Corby, leader of the democratic party, has been imprisoned at Koenigsberg by order of the military authorities for calling a meeting and drafting resolutions against the annexation of French territory. The democrats of Munich passed similar resolutions.
It is said to be officially announced that the further unity of Germany will be secured by new political institutions.
LONDON, Sept 22.—Communication between Paris and London is reopened. Dispatches from Berlin report that the Consulation is preparing for the security of German unity.
Herr Debrueck is arranging formalities for proclaiming Frederick Emperor of Germany.
BRUSSELS, 22.—British diplomats arrived yesterday en route to the headquarters of the King of Prussia, on an important mission connected with the peace negotiations agreed upon.
FLORENCE, Sept 22.—Contingents of each division of the Italian army occupy the city of Rome, the remainder having gone into camp outside the walls. The Papal troops on capitulating laid down their arms. The Papal legion has gone to Civita Vecchia, there to await the completion of arrangements now being made to transport them to their several countries.
The Italian loss in killed and wounded before the city was trifling.
All the people of Italy are jubilant over the accomplishment of Italian unity.
BERLIN, Sept 22.—It is understood that Napoleon is preparing a manifesto to the French people.
The members of the French Senate and Corps Legislatif will probably assemble at Limoges.
NEW YORK, Sept 22.—A dispatch from Tours says the Prussians have cut the Orleans railway. They now occupy several

points along the line and menace Orleans. A general revolt of the Arabs has occurred in Algeria. The Chasseurs d'Afrique have gone back from Maritzles.
Negotiations between Bismarck and Favre have not proceeded beyond the question of a guarantee that the Constitutional Assembly shall accept conditions.
NEW YORK, Sept 21.—Nothing definite has been received from Paris to-day.
Eastern States.
NEW YORK, Sept 22.—It is reported that Senator Morton has accepted the mission to England.
WASHINGTON, Sept 22.—Now when it is definitely known that Senator Williams will not return to the Senate, it is said the President will tender him the position of Secretary General of the U S. This office was created during last session of Congress, but has never been filled.
A report comes from Georgia that Attorney General Akerman is in very poor health and is thinking seriously of resigning his position.
WASHINGTON, Sept 21.—It is rumored to-night that Hon Ben Wade will succeed Motley as Minister to London, but no information has been obtained from official sources either denying or affirming this.
ROCHESTER, Sept 21.—The State ticket was nominated by acclamation—for Governor Jno Hoffman; for Lieut-Governor Alvin O Beach.
Washington Territory.
OLYMPIA, Sept 22.—The old Main street wharf is undergoing general repairs and is being extended into the bay sixty feet beyond its former limit in order to accommodate the increasing business.
The frame for a large steam sawmill is being erected. It will be in running order by Dec 1st.
General Sherman, who is now in Portland is expected to visit the Sound before returning East.
Andrew J Burr, an old citizen, has had a commission signed as Deputy Postmaster in place of J H Munson.
Messrs Haque and Wilson, who recently succeeded in reaching the summit of Mount Hood, are now about to make the ascent of Mount Adams.
Business is lively, owing to the opposition on the steamer and stage routes.
Nevada.
VIRGINIA, Sept 21.—About 1 o'clock last night a magnificent display of the aurora borealis was visible here.
F A Trytelle was nominated by the Republican State Convention at Elko to-day for Governor.

SAN DIEGO, Sept 21.—The Oregonian says that within ten days the Indians killed 10 men, wounded one, and carried off or destroyed property to the amount of \$10,000.
SAN FRANCISCO, Sept 22.—Wm Reilly, the pugilist, while coming down from Vallejo by the steamer New World, last evening, created such a disturbance that he was put in irons on his arrival at the wharf. He was released, when he stabbed Capt Gedge, the knife entering just below the eye, passing downwards through the roof of the mouth. Reilly then made his escape, but the police are after him.
Stephen McGilroy, who was run over by a railroad a few days since, died in the hospital.
Gilroy offers a hundred acres of land and \$40,000 for the location of the Odd Fellows' Orphan Asylum there.
The Italian fishermen are fighting among themselves. A majority having determined to stop fishing entirely until they had free wharfage they decided to prevent the others from fishing and they accordingly scuttled the boats, at the foot of Washington street, belonging to those who wished to continue the business. A boat full of armed men has gone outside the Heads to prevent anybody taking fish.
Gen Angel Martinez, who left here two months ago, is in Germany. He writes to his friends here that although the Imperial rule not to allow foreigners to be spectators in the German army, is rigidly enforced, Baron Magnus has thanked him for his offer in behalf of the King of Prussia, and he expects to accompany the King to Paris as spectator and student of the art of war on behalf of Mexico, as Sheridan does for the United States.
Steamer California sailed for Portland to-day.
New Zealand.
The New Zealand Herald, of the 6th, mentions the loss of the steamship Tau-ranga, with all hands, near the Bay of Islands. The catastrophe occurred on the 23d of July, and was caused by collision with the coal laden ketch Enterprise. Some eighteen persons perished.
There is trouble with the Maories, again, at Poverty Bay, on the east coast—the scene of a former massacre. A party of Hanauas have been shooting friendly natives.
The news from the gold-fields is very encouraging. The yield for July was eleven thousand eight hundred and fifty ounces.
A good many people with capital have gone to the Feji Islands with the intention of cotton-growing, and a large fleet of Auckland vessels are cruising there, engaged in the native labor business, and in doing the coast trade of the group.
The deputation from Auckland to Sydney on the subject of the Port of Call for the steamers on the San Francisco

mail route has returned, with the news that the Sydney Chamber is strongly in favor of Auckland—one member stated that more business was done with Auckland in a year than with all the rest of the Colony in twenty years. The Government of New South Wales has, therefore, been urged to subsidize Mr. Hall's line to the extent of £10,000, and there is no doubt that this will be done.
T. N. HIBBERN & Co, having for a period of years appropriated a certain class of books for a circulating library, more for accommodation that profit, have by a fair experiment tested that in consequence of the destroyed and mixing number, issued, the result to them has been a positive loss.
